

Dear Friends,

On Thursday, November 24, we in the United States celebrate the Thanksgiving holiday. While there are many humanly loving traditions that surround that holiday, Joel has also reminded us that: *“Spiritually understood, Thanksgiving cannot be confined to a day, a week, or a month. Thanksgiving is a state of consciousness. It has to be a permanent state so that as spiritual students, we realize that there cannot be such a thing as a minute of the day or the night when somewhere within us there isn’t a thanksgiving, a giving of thanks, a recognition or acknowledgment of the spiritual source and activity of all being.”*

*“Let your thanks be that the door of spiritual consciousness has opened and revealed God as the very nature of your own being. Let your thanks be that the kingdom of God, which you have long sought, has been found—within yourself.”*

We are most deeply grateful for the eternal message of Truth that was re-revealed through Joel Goldsmith, and which has been a gateway to Grace for so many. We give deepest thanksgiving as well for each and every one of you, our precious fellow travelers on this beautiful path, who stand as One in the luminescent Circle of Christhood. May you and your loved ones have a most blessed Thanksgiving!

In Loving Recognition of the Indwelling Christ,  
Liz and Marty
